**HAMBURGER'S PERFORMANCE PRODUCTS** Oil Filtration Components and Oil Filter Relocation Kits are the pinnacle of quality and performance. CNC machined in our California manufacturing facility using durable, lightweight, aircraft-quality aluminum, Hamburger's components are durable and provide high enough oil flow for virtually any automotive application—from daily driver to top fuel dragster.

Now, the same high quality filtration components you've trusted for nearly a decade are available as complete relocation kits. Check out the charts on the following pages for a selection of single filter, dual filter and multi-position oil filter relocation kits. Each kit includes a remote filter base, application specific filter bypass adapter, aluminum fittings and braided oil lines.

New billet kits include quality Gates Oil Lines

Billet Kits Include -12 AN Fittings

Select bases include Instrumentation Port
