

**HEDMAN
HEDDERS**

PRODUCT WARRANTY

STREET HEADERS: HEDMAN MANUFACTURING conditionally warranties, for life, each set of new Hedman Heddere Street Headers to be free from defects in materials and workmanship including tube cracks and welds. Factory applied header coatings are warranted for **5 (five) years** from the date of purchase. See coating warranty below.

ALL OTHER PRODUCTS: All non-header products (*including, but not limited to: gaskets, reducers, fasteners, mandrel bends, exhaust tips*) are warranted for a period of **90 days** from the date of purchase.

CLAIMS

Should a part become defective, return it to the original selling dealer. All warranty claims must be accompanied by a sales receipt and Hedman Warranty Certificate.

If there is no dealer in your area, first **CONTACT** Hedman Heddere for a return authorization number then return the part **PREPAID** to the address on the reverse side of this Warranty Certificate. Upon inspection, Hedman reserves the right under the provisions of the warranty to replace or repair the part in question. Hedman will return all warranty claims to you freight collect.

This warranty covers the replacement or repair of the defective part only and does not cover the cost of removal or installation or customer applied aftermarket coating.

This Warranty extends only to the original purchaser and is non-transferable.

EXCLUSIONS

This warranty does not cover defects resulting from collision, improper installation, alteration, off-road use, road hazards, the use of exhaust insulating wrap or similar products. RUST THROUGH occurring after installation is not cover by this warranty.

HEDMAN COATINGS WARRANTY

In addition to the Hedman Heddere limited lifetime warranty, Hedman factory applied ceramic-metallic coatings, referred to as HTC, ELITE and Black-Maxx, are warranted for **5 (five) years** from the date of purchase. This guarantee covers the replacement/repair of the product only and DOES NOT cover the cost of removal and installation.

Hedman does not warranty any Hedman-factory coated product installed on vehicles which have superchargers, nitrous oxide systems, or turbocharged engines. Due to the excessively high exhaust temperatures created during engine break-in, the use of cast iron exhaust manifolds or old headers during the first 20-30 minutes of engine life is strongly recommended. DISCOLORATION CAUSED DURING ENGINE BREAK-IN, EXTREMELY LEAN OR RICH ENGINE OPERATING CONDITIONS, damage or defects resulting from collision, improper installation, off-road use, road hazards, the use of exhaust insulating wrap or like products, or RUST-THROUGH occurring after installation of a Hedman HTC Product, IS NOT COVERED BY THE GUARANTEE. Any Hedman Heddere coated by any other means other than the Hedman factory are not covered under this coating warranty. This warranty extends only to the original purchaser only.

This Warranty is in lieu of all other Warranties, expressed or implied.
